COLORBOND® steel

Whatever your lifestyle, wherever you live, there's a COLORBOND® steel solution for your home. There's a choice of 20 colours to suit Australian home styles, from traditional to modern.

Durability

COLORBOND® steel's superior oven-baked finish resists chipping, peeling and cracking. It's also non-combustible, termite resistant, very secure against intruders and weather-tight, protecting your home against harsh Australian conditions†.

Design Flexibility

Not only does COLORBOND® steel provide more scope for interesting roof shapes, but it delivers a lightweight roofing solution that gives you the freedom to design a floor plan that better suits your lifestyle.

Hi-tech Production

COLORBOND® steel is one of the most advanced roofing materials in the world. We start with a ZINCALUME® steel base for outstanding anti-corrosion performance. Next, a conversion layer is chemically applied to enhance coating adhesion. Then a specially formulated primer is baked onto the surface. And finally, a durable exterior grade top-coat is baked on.

With an advanced Super Polyester pre-painted coating technology your roof will stay looking newer for longer.

Colour Choices

COLORBOND® steel's modern range of designer colours offers a myriad of solutions for simply beautiful roofs in any environment. And with our colour names now trade marked, you can be even more confident that what you ask for is what you get – genuine COLORBOND® steel from BlueScope Steel, not an imitation.

Thermal Efficiency

COLORBOND® steel is the thermally efficient roofing material of choice that keeps your home cool in summer and warm in winter.

Environmentally Friendly

BlueScope Steel is committed to recycling as much steel as possible. In fact, steel scrap is now a major component in BlueScope Steel's production of new steel.

Warranty

BlueScope Steel offers a warranty of up to 30 years* from the date of installation for a roof made from COLORBOND® steel.

Please check your chosen colour against an actual sample.

† When installed to manufacturer's specifications. *Warranty is subject to terms and conditions.
